

Skyline Stabiliser for TV

Power Backup + Protection

Give Protection from Power impurities.

Save your work & equipment when Power goes.

The Electronic voltage regulator is designed to protect sensitive electronic equipments like, LCD/LED TVs up to 42", set top box, Music Systems, DVD Players, Xbox, PS2, Laptops, Home Computer, Monitor, Modems, Data Processing Equipment, Inkjet Printer, Scanner, Fax, etc.

- Provides stable output voltage through 2-boost and buck stabilizer
- Accepts wide input voltage range from 120V-300V
- 2 time delay selector protects the precious electronics against any consecutive starts.

Model	SL-AVR600
Power Capacity	230V, 2A/ 300W
Input Voltage Range	120 - 300 V & 140-300V selectable
Output Voltage Range	200 - 240V (I/P V 170-280V)
Time Delay	120-300V, 3 sec or 140-300V, 0 ms for PC use
Output Frequency	50 Hz & follows input
Surge & Lightning protection	320J, 7000A
Spike & Noise protection	Elementary filter included
Mounting Position	Wall mount & desktop
Dimension (DxWxH)	248 x 90 x 88 mm
Output sockets	3 x Indian 5 pin, sockets
Color	Black
Application	LCD/LED TV upto 42", Set Top box, DVD Player

Specification subject to change without prior intimation
